- 10 • Implementing the Emergency Cholera Response Project Targeting 44,154 Individuals in Ibb and As Sayyani Districts:

## Crisis Figures 2019:

## Humanitarian Context 2019:

On 16 May, multiple air strikes hit various locations in Amanat Al Asimah and Sana'a governorates, killing children and wounding more than 70 civilians including foreign health workers and a refugee. In a statement, Ms. Grande, Humanitarian Coordinator for Yemen said: "This terrible incident is a tragic reminder of all the reasons this war must stop."

In Hajjah Governorate, the Protection Cluster reported confrontations in Hayran District and airstrikes and bombing in Abs. The casualty rate across the Al Hudaydah Hub remained high, with 19 civilian casualties reported between 9 and 15 May, including four in Hajjah. Heavy weapons were used in Al Hali District while strikes intensified in Ad Durayhimi District. Hostilities were also reported in the Al Jabaliyah area in At Tuhayta District. One child was killed in Al Hali and another injured.

Between 8 and 14 April, 27,840 suspected cases and 48 associated deaths were reported by WHO. Severe cases constituted 18 per cent of the total. The cumulative number of suspected cholera cases between 1 January 2018 and 14 April 2019 stands at 224,444 with 470 associated deaths. Children under age 5 represent 22.5 per cent of total suspected cases.

This outbreak has affected 21 of 23 governorates and 286 of 333 districts in Yemen since the beginning of the year. In the first half of April, the trend of weekly reported suspected cholera cases was stable at the country level. The districts reporting the highest number of suspected cases of cholera during the week to 14 April were Bani al Harith (869), Shu'aub (855), As Sabain (808), Ma'ain (737), and Hamdan (636). There is a total of 230 Diarrhea Treatment Centers (DTCs) and 1,053 Oral Rehydration Corners (RCs) across Yemen to respond to the cholera outbreak.
